What parking facilities are available?

The majority of town car parks will be available as normal, South Esplanade Car Park will be closed from Friday - Monday. It is anticipated that traffic will be busy on the morning of the race, so please leave sufficient time to get into town, parked and to the start of the race.

Are the roads going to be closed?

Not all of them. The busy roads in town will be coned off and managed with Police support during the start of the race. On other areas of the course the Police and marshals will control traffic to minimise the impact on the runners and to ensure that the race is safe for participants and the public alike.

This means you will be running with the traffic for much of the course – runners must stay left. Please ensure that you stay aware of the traffic and follow the instructions of the Police and the Marshals – they are there for your safety.

FAQ's

Can I run with my headphones/earphones in?

No in-ear headphones/earphones are allowed on the course; the only exception is Bone Conductor Headphones as these do not obstruct the runner's ability to hear instructions in anyway. This is for your safety, as the race is not on entirely closed roads. If you are listening to music, you may not hear traffic or the instructions of the Police and Race Officials.

Can I rollerblade or cycle during the race?

No. No wheeled transport is allowed on the course. The Official Race Rules outline the details of what is permitted.

Can my friends follow me on their bikes?

No. This is against UK athletics rules and therefore runners who are being followed by friends on bikes could face disqualification from the race.

Can I bring along my dog to run with me?

Pets are not allowed on the course.

What is the course elevation?
